DETAILED ACTION

Applicants' Amendments to the Claims filed 21 September 2009 have been received and entered. Claims 2-5, 8, 10-16 and 25 are cancelled. Claims 1, 6-7, 9, 17-24 and 26-27 are pending. Claims 6 and 18-20 are withdrawn. Claims 1, 7, 9, 17, 21-24 and 26-27 are under examination in this Office Action.

Response to Arguments

Any objections/rejections not repeated in this action are withdrawn herein.

The rejection of Claims 7, 17, 24 and 26-27 under 35 U.S.C. 112, second paragraph, is WITHDRAWN based on claim amendments. The rejection of cancelled Claim 10 is moot.

The rejection of Claims 1, 7, 9, 17, 21-24 and 26-27 under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement is withdrawn based on Applicants persuasive argument. The rejection of cancelled claim 10 is moot.

The rejection of Claim 1 as provisionally rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 21 and 34 of copending Application No. 10/793,032 is WITHDRAWN based on claim amendments in the '032 application. It is noted that the genes in Table 1 of the conflicting '032 application (currently being issued as US Patent No. 7,643,943), are not disclosed in the instant parent application 10/775,169. The rejection of cancelled Claim 10 is moot.

New grounds of rejection

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1, 7, 9, 17, 21-24 and 26-27 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Base Claims 1 and 17 are incomplete for omitting essential structural cooperative relationships of elements, such omission amounting to a gap between the necessary structural connections. See MPEP § 2172.01. The omitted structural cooperative relationships are: the one or more patients before CCI-779 treatment required for the reference expression profile are not required to be patients having RCC and thus the correlation to the expression profile of the samples obtained from the patient having RCC at a stage of treatment with CCI-779 is unclear.

Dependent Claims 7, 9, 21-24 and 26-27 are indefinite insofar as they depend from base Claims 1 and 17.

Additionally, Claim 24 recites the limitation "said patient" in line 3. There is insufficient antecedent basis for this limitation in the claim because Claim 17, from which Claim 24 depends, recites "a patient" in line 3 and recites "one or more patients" in line 10 and it is unclear which "patient" is encompassed by the limitation in Claim 24.
